

Jordan Dorman

Dallas, TX | techlab.jd@gmail.com | [linkedin.com/in/jordan-dorman](https://www.linkedin.com/in/jordan-dorman) | techlab-jd.github.io

Summary

CompTIA A+ certified IT Support Specialist and operations-focused professional, also holding the Google IT Support Professional Certificate, combining credentials with real-world experience supporting end users, managing workflows, and leading teams in fast-paced environments. Experienced in Windows 10/11 environments, foundational networking concepts, ServiceNow-aligned ticketing workflows, and technical troubleshooting. Applies a calm, methodical approach to troubleshooting, documentation, and escalation, translating technical issues into clear, user-friendly solutions.

Education

Per Scholas – IT Support Specialist & Security+ Tracks | Nov 2025 – Present

15-week full-time IT Support track: earned CompTIA A+ and the Google IT Support Professional Certificate. Currently enrolled in Per Scholas Security+ coursework.

J.J. Pearce High School | Aug 2012 – Jun 2016

High School Diploma

Projects

- Built modular portfolio environments and lightweight tooling projects using structured troubleshooting methodologies, version control fundamentals, and documentation best practices.
- Created reusable templates and scripts to automate information gathering, task execution, and workflow organization in sandbox environments.
- Developing MyOS, a browser-based OS-style environment emphasizing modular design, dynamic layouts, and lightweight tooling workflows.

Experience

Founder – Steady Systems | Sep 2026 – Present

- Launched a digital product studio selling productivity and study templates through an online storefront (syssteady.gumroad.com).
- Built an automated production pipeline in Python with API-driven publishing: file generation, listing copy, image rendering, and daily release scheduling.
- Own product strategy, market-based pricing, rights review, and brand design end to end.

Founder – Vectoral Labs | Mar 2026 – Present

Dallas, TX · Hybrid

- Building a field sales and tech services operation across Dallas–Fort Worth, focused on in-home and small business tech services (Wi-Fi optimization, smart home setup, device integration).
- Lead recruitment, training, and day-to-day team operations; manage partnerships and sales execution with major telecom providers.
- Developing systems for customer acquisition, service delivery, and team growth.

Project Manager – Self-Employed | Aug 2024 – Present

- Coordinated project workflows and administrative operations across multiple initiatives, ensuring timely execution and documentation.
- Developed structured task tracking, documentation standards, and execution timelines to support consistent project delivery.
- Supported training, onboarding, and process improvement initiatives in fast-moving environments.

Sales Consultant – AT&T Authorized Retailer (Contract) | Apr 2024 – Present

Dallas, TX · Hybrid

- Streamlined operations by designing and implementing automated workflows to route requests and track status, reducing manual processing time.
- Applied prioritization and escalation rules similar to IT ticketing workflows to manage high-volume client requests.
- Maintained accurate documentation and records using Google Workspace and Microsoft 365 tools.

Team Lead – GMG | Mar 2024 – Aug 2024

- Led small teams in operational, administrative, and staffing workflows.
- Supported recruiting, onboarding, new hire training, and scheduling coordination.
- Managed paperwork, budgeting support, and internal documentation processes.

Shift Lead – DoorDash (DashMart) | Oct 2023 – Mar 2024

Dallas, TX · On-site

- Led high-pressure logistics and inventory operations in a 24/7 delivery environment.
- Supervised 10+ team members, improving productivity, fulfillment accuracy, and response times.
- Optimized workflows, scheduling, and inventory accuracy using shared systems and KPI tracking.

Assistant Manager / Training Manager – Domino's | Jan 2020 – May 2021

Dallas, TX · On-site

- Managed in-store operations across multiple locations in high-volume environments.
- Trained and supervised 5–25 staff per shift, supporting onboarding and ongoing development.
- Handled inventory, scheduling, cash flow, and performance KPIs.
